REPORT

International Green Culture Festival

GREEN FEST

is an inclusive event dedicated to ecology and environment protection, which, through education, film and exhibition program, encourages culture of living in accordance with green values.

8th International Green Culture Festival GREEN FEST was held November 14-17th 2017, in Dom omladine Beograda (Belgrade Youth Center), attracting around 10 000 visitors.

Program of the festival is divided in three segments: Green Field, Green Square, Green Screen Fest.

International Education Program GREEN FIELD is place for opening of new approaches to education through peer and expert education. 20 workshops/lectures/debates was held for students from 50 education institutions.

International Exhibition Program GREEN SQUARE is informative-exhibition program dedicated to companies, organizations, civic initiatives, artists, social and student entrepreneur companies developing green products. 20 exhibitors formed welcoming square for all of the festival visitors.

International Environmental Film Festival GREEN SCREEN FEST is divided in two parts - short and mid-length and full-feature film. On Call for Entries, total of 1530 films was received from 103 countries, of which the best 65 films were screened.

In full-feature program, 8 high quality documentary films were screened, festival winners from around the world. Six films had Serbian premiere in the festival. Screened films: Landfill Harmonic, Before The Flood, Chasing Coral, Plastic Ocean, Waking of permaculture, The True Cost, Sustainable and Age of Consequences.

This year, The Audience Award was introduced for full-feature films, and it has been won by the film "Chasing Coral".
